Subject: RE: Singular v. Google - PROD029

Counsel:

We respectfully request that if you intend to seek further relief from the Court based on your review of Google's latest production, please explain what relief you will seek as required by L.R. 7.1(a)(2). We believe the parties may be able to resolve or narrow any such request if reasonable.

Furthermore, you noted at Monday's status conference that you may still have questions about Google's recent productions. If you have specific questions beyond your email this morning, could you please send those in writing so that we can provide responses and limit the number of issues we need to address before the Court?

Regards,
Deeva
